

FOR IMMEDIATE RELEASE

BMR Fabrication Poly/Rod Adjustable Panhard Rod for the 4th Gen F-Body

Precisely locate the rear axle housing in your 1993-2002 F-body chassis with a Poly/Rod Adjustable Panhard Rod from BMR Fabrication. Manufactured from heavy wall 1.25" DOM tubing and a 3/4" diameter, chrome-moly double adjuster, this panhard rod utilizes a high-durometer polyurethane bushing on one side while using a chrome moly 3/4" QA1 rod end on the other side. The BMR Poly/Rod Adjustable Panhard Rod (PHR010) allows bind-free rear end articulation without compromising sound or ride quality. Additionally, this design allows on-car adjustability to easily locate the rear axle housing on lowered vehicles. Installation time is less than 1 hour. Available in black hammertone or red powdercoat.
